Synopsis:

- Having around 5.1 Years of experience in Business Intelligence with good working on Power BI Desktop, Power BI Service, Power BI Developer, SQL Server, Excel, Share Point and Power AutomateDesktop.
- Experience on Data Warehouse concepts like Star Schema, Snow Flake, Dimension and Fact Tables.
- Having Good Experience on importing data from various sources into Power Bi like SQL Server, Text/Csv Files, MS Excel and Share Point by using Import, Direct and Live connections.
- Extensively used transformations like Merge Queries, Append Queries, Pivoting the Column, Un-Pivoting Columns, Adding Custom Columns, Splitting the Columns, Merging the Columns etc.
- Experience on data modeling created Cardinality relationship between the different tables like one to one, many to one, one to many.
- Having Experience on DAX (Data Analysis Expression) functions to create Tables, Columns and Measures
- Experience on DAX expressions like filters, Text, Aggregate and time intelligence etc.
- Extensively worked in Power View for Presenting the Data in Graphical Format using Different Visualizations like Line chart, Bar chart, Tree map, Card, Multi card, Table, Area chart, Pie chart, map, slicer etc.
- Having Good Experience on different filters like drill down & drill through
- Good Experience on creating Hierarchies and implemented Hierarchy filters in reports
- Experience in creating bookmarks and providing actions, enabling toggle buttons and sync slicers interact with reports
- Having experience in creating new measure for YTD, MTD, QTD growth analysis in power -desktop.
- Worked on On-Premise Data Gateway to Refresh and Schedule Refresh the Data in the Dataset
- Good Experience on implementation of row level security (RLS) as part of security.
- Experience in Data Source Settings, Workspaces, publishing Reports to Power BI Services and setting up the necessary connection details and Scheduling.
- Provided continued maintenance and development of bug fixes for the existing and new Power BI Reports.
- Good in writing SQL Sub Queries and Joins, Set Operators Constraints.
- Good Experience in writing SQL Functions like Aggregation Functions, string Functions and Date Functions.
- Experience in the implementation of Common Table Expressions (CTE), implementation of Rank Functions, Temporary Tables, Table variables and String functions.
- Very good Knowledge in SQL Programming skills and Experience in developing store procedures, creating Indexes and views using SQL.
- Install and configure Power BI Gateways to keep and dashboards and reports refresh automatically.
- Created workspace and apps in power bi service and giving access to end users to apps.
- Configures and maintains Premium capacity planning, updating troubleshooting, access management and

performance management.

- Worked as a power Bi Administration. We can change workspace the shared capacity to premium Capacity.
- I am creating the data source creation and working capacity monitoring.
- I have good knowledge in solving the Gateway issues.

Work Experience:

Worked in CAPGEMINI TECHNOLOGY SERVICES INDIA LIMITED **from** April 2021 to December 2022.

Worked in Mind Tree from December 2018 to May 2021.

Academic Qualification:

B. Tech (ECE) from Brahmaiah College of Engineering at Nellore.

Skill Set:

Technology : Microsoft Business Intelligence Tools,
BI-Tools : Power BI Desktop, Power BI Services, Power BI Admin.
RDBMS : SQL Server, Big Query, Snowflake, PostgreSQL, Azure.
Tools : MS-office Packages (Excel, Share Point, etc.)

Project profile #3

Project : COCA_COLA BOTTLER
Client : CCBSS
Environment : Power BI, DAX and Snowflake, PostgreSQL Server
Role : Power BI Developer
Duration : March-2022 to Oct-2022

Project Description:

Coca-Cola Consolidated is the largest Coca-Cola bottler in the United States. For 120 years, we have been deeply committed to the consumers, customers, and communities we serve and are passionate about the broad portfolio of beverages and services we offer.

Responsibilities:

- Create and manage dashboard reports for management review
- Involved in developing of Migration Reports to Power BI Reports and Power BI Paginated reports from Teradata to Azure Synapse analytics
- Involved in developing of Migration Reports to Power BI Reports from Cognos Reports.
- Extensively involved in understanding the data model and mapping of the columns independently.
- Worked with Live Connection (Power BI Dataset)
- Worked on Performance tuning and model optimization of the data model using different modelling techniques
- Worked on developing the Power BI Paginated Reports from Teradata Platform to Azure Synapse analytics
- Worked on extensively developing the DAX Measures, Calculated Connected to Azure Synapse analytics and developed the reports Interacted with End Users and developed the reports on there requirements
- Worked on writing the SQL Queries in both Teradata and Azure Synapse analytics for testing the data.

- Extensively involved in validating the data against Teradata and Azure Synapse Involved in creating subscriptions to the End users for Paginated Reports
- Worked on Publishing reports to workspace and documenting the work.

Project profile #2

Project : MGM Resorts International
Client : MGM
Environment : Power BI, DAX and Snowflake, PostgreSQL Server
Role : Power BI Developer
Duration : Apr-2021 to Feb-2022

Description:

MGM Resorts International is a hospitality domain, we work for Migration Projects, Power BI Reports are Migrating from Teradata (TD), On-Premise SQL Server to Azure Synapse analytics.

Responsibilities:

- Responsible for Data reshaping.
- Preparing the adhoc Requirements based on client.
- Providing support to the existing reports.
- Delivery quality email reports to users on Daily, MTD, QTD, yearly.
- We are using Excel files and SQL Server database as data sources.
- Develop Power BI reports & Effective dashboards based on client requirements.
- Creating different visualizations like line, Stacked Bars, Pie Charts and Bar and Donut Charts.
- Creating calculated measures and columns with DAX in POWER BI DESKTOP.
- Creating Dashboards and graphs.
- Responsible for Dashboards design, layout, look and feel development.
- I have Good experience on Implemented Row level security and schedule refresh & Incremental refresh.
- Provided 24X7 production support to ensure timely and error free delivery of reports.

Project profile #1

Client : Michelin Group
Project Name : Michelin Tyres
Role : Power BI Developer
Duration : April-2018 to Apr-2021

Description:

The Michelin Group is a global company headquartered in Clermont-Ferrand, France. Founded in 1889, the Michelin Group provides tyres to over 170 countries. The Michelin Group makes tyres locally for your specific needs and road conditions in one of our 69

Responsibilities:

- Responsible for coming up with insights from the Data
- Developed various reports which includes some of the key metrics like Top Branches based on volumes, Type of Customers availing Services most, Maps to show the branch performance across globe etc.
- Imported data from SQL Server DB to Power BI to generate reports.
- Extensive knowledge on data modeling.
- Extensively used transformations like Merge Queries, Append Queries, Pivoting the Column, Unpivoting Columns, Adding Custom Columns, Splitting the Columns, Merging the Columns Etc.
- I have Good knowledge on working with filters like bookmarks, Buttons & Slicers.
- Worked extensively on Power BI desktop and Power BI Service.
- Created Required Measures and Calculated Columns using DAX.
- Experience on publishing Power BI reports, dashboards in Power BI service.

Declaration:

I hereby declare that the above-furnished details are true to the best of my knowledge.
